<b>2</b>	<b>Changes from natbib to biblatex</b>	<b>1</b>

## 1 biblatex example

Note that biblatex is better than natlib.

Reference using cite gives [1].

Reference using parencite gives [1].

Reference using textcite gives Hartle [1].

## 2 Changes from natbib to biblatex

You also need to replace citep with parencite and citet with textcite. There might be other similar minor changes.
